St. Andrew's Parish Family Night Held

The Vestry of St. Andrew's Church, Wednesday night, Sept. 19, sponsored their first monthly Parish Family Night. The evening's program was in charge of the men of the vestry who planned an evening's entertainment for the children and adults of the parish, which included dinner, a community sing, motion pictures for the children, dancing and cards. General chairman was Jack Miller, assisted by Charles Eade and A. C. Turner, who showed the motion pictures; Wallace Post in charge of dish washing; Frank Church in charge of the dinner, and Paul Wheeler in charge of the card playing. The most popular feature of the evening was that the women were guests of the men who did all the work. Waiters were Charles Stewart, Ed Rhone, Bert Toeves, B. L. Rice, H. T. Barnes, Dave Jones and Carl Lane. The dinner was a wiener bake. Each month different activities will take place. The purpose of the evenings, is to bring together in fellowship the people of St. Andrew's.

Rolling Restaurant..

Maintaining a railroad's track and roadbed in A-1 condition requires the services of a large number of construction crews. Hard workers—these men require plenty of wholesome food at regular mealtime intervals. But, being constantly on the move they are frequently many miles distant from a city or town.

for the manager whose chief occupation is the preparation of meals. There are a thousand of these outfit-car managers—fifty of them women. They find a deep satisfaction in their culinary ability to provide tasty, well-balanced meals... and in keeping their home-on-wheels spic and span. Needless to say, the ringing of the dinner bell is a welcome sound to the construction crews who are doing their part to speed vital freight, and the armed forces, over the Union Pacific Strategic Middle Route, uniting the East with the Pacific Coast.

To meet this situation, Union Pacific provides two "outfit cars" for each construction crew. In one of these cars there is a dining room, kitchen, and storage space for food... a rolling restaurant. The other car is converted into comfortable living quarters

How to put a cow in balance

It may not be apparent at first glance, but you'll find that cows can be contrary critters. Take the inconsiderateness of some members of the finest dairy herds, for instance. To be delivered to you, milk must contain a certain percentage of butterfat. To travel under the Golden State name, it must top legal requirements by a good deal. Yet the milk from even the finest dairy cows sometimes varies in butterfat content. So, whenever this happens, Golden State's daily testing procedures are

quick to find it out. Then all the milk is immediately richened by blending in cream. This is what we mean by "balancing"... or "standardizing." Keeping the butterfat content at the proper level is just one of many ways Golden State scientists work hand-in-hand with Nature... maintaining peak measure of quality, purity, freshness, and flavor in fine dairy products.

You strike it RICH in Golden State!

Please return empty milk bottles. Right now there's a shortage of milk bottles that's so serious some folks may even have to do without milk unless empty bottles are returned promptly. New bottles are practically impossible to get. Please return empties to your Golden State man or to your grocer.
